&
The Institute of Chartered Accountants of Nepal (ICAN)

THREE THINGS WE DO BEST IN PRACTICE MANAGEMENT

- **LARGE ASSIGNMENT**

It deals with assignments of complex nature and process, either on cost, time or effort estimation. This module is designed to generate, update and track end-to-end processes, activities and tasks along with the team and its performance.

- **MEDIUM ASSIGNMENT**

It deals with assignments that involve less processes and moderately complex in nature. It can be implemented for assignments with lower estimation either on cost, time or effort in comparison to large assignments.

- **SMALL ASSIGNMENT**

It's a task-based assignment that contributes to keep track of clients' requirements. Small assignments provides in-depth insight into the client's requirement, resolution status and performance analysis.

ANDROID MOBILE APPLICATION

Simplify Practice Android Mobile Application is designed to manage Practice on your fingertips. Team members can schedule, assign & review activities, raise easy claim to your manager from client place, mark attendance when you are at client's place. Simplify Practice Android Mobile Application allows you to record your activities from any location, schedule meetings, which can be reviewed through the application and so on...
